Understanding the Boone and Crockett Club and Its Trophy Program Origins and Mission of the Boone and Crockett Club Founded in 1887 by Theodore Roosevelt and a group of conservation-minded hunters, the Boone and Crockett Club was established to promote responsible hunting, wildlife conservation, and scientific management of game species. Over the decades, the organization has become a cornerstone of North American wildlife conservation, with its trophy measurement standards serving as the definitive benchmark for

big game specimens. The club's mission emphasizes ethical hunting practices, sustainable management, and the celebration of exemplary specimens through its trophy records. Its reputation hinges on maintaining strict measurement criteria and ensuring that only genuinely outstanding specimens are recognized.

The Trophy Measurement and Record-Keeping System

The Boone and Crockett Club employs a rigorous measurement and scoring system to evaluate big game trophies. Key aspects include:

- Antler or Horn Measurements:** The primary method involves measuring antlers, horns, or skulls, focusing on length, spread, mass, and symmetry.
- Score Calculation:** The total score, expressed in inches, combines various measurements to produce a comprehensive ranking.
- Categories:** The program recognizes different categories, such as typical, non-typical, and different species (e.g., deer, elk, moose, bears).
