What are the main differences between the old GCSE and the new 9-1 GCSE Biology curriculum?

The new 9-1 curriculum introduces more challenging content, a greater emphasis on application of knowledge, increased focus on scientific skills, and a different grading scale. It also consolidates content to ensure deeper understanding rather than broad coverage.

Are there specific topics in the Edexcel Biology course that students tend to find more difficult?

Yes, topics such as enzyme activity, genetic inheritance, and ecological relationships often pose challenges due to their complexity and the need for understanding both concepts and experimental procedures.

What resources are recommended for effective revision of Edexcel GCSE Biology for the new specification?

Recommended resources include Edexcel's official past papers and specimen papers, revision guides tailored to the 9-1 specification, online tutorials, interactive quizzes, and revision apps like Seneca or Quizlet.
